Bienvenido a Parkville Care Center

Welcome to Parkville Care Center, formerly known as Park Place Health Center. We are thrilled to announce as of January 2019 Parkville Care Center is part of the iCare Health Network. We chose the name Parkville to honor the care center's place as a provider of quality skilled nursing and long term care in the historic Parkville neighborhood of Hartford, Connecticut.

Hispanic Culture Program

Parkville Care Center's Hispanic Culture Program's mission is to serve the unique skilled nursing needs of the Hispanic population of Hartford, greater Hartford area and indeed all of Connecticut.

Parkville's Spanish-speaking residents and their families will be greeted with a sense of belonging and comfortable and inviting environment. We continue to expand and refine this program to meet the growing needs.

- Spanish-speaking Medical Director
- Spanish-speaking nursing and ancillary support staff such as dietary services, business office, social work and more.
- Spanish TV and radio channels
- Cultural events and community supports
- Hispanic and Latino cuisine offerings
- Culturally appropriate entertainment, activities, and spiritual programs
- Spanish speaking chaplain and religious services

Respite Care Services

Respite Care provides caregivers a temporary break, or time of relief, from their care giving duties. It is ideal for family caregivers in need of a break for vacation or other travel or for loved ones needing assistance in recovering from a health circumstance or life transition.

Respite Care also serves to provide a break from the constant physical and emotional stress of caring for a person with 24/7 needs, such as a person with Alzheimer's disease, related dementia, cognitive and physical impairment and disability.

Memory Care Program

The Memory Care Program is now part of iCare's Greater Hartford Memory Care Centers (GHMCC) and is delivered in a safe, secured environment where residents are cared for by highly trained professionals under the direction of a full time Memory Care Program Director. Residents are treated with dignity and respect and are welcome to participate in a wide variety of therapeutic recreation activities designed to meet their individual physical, cognitive and emotional well-being.

Upon admission to our program, residents' specific needs and lifestyle patterns are identified and addressed through the assessment and individual care planning process.

- Programs based on cognitive, physical, spiritual, sensory, emotional and cultural needs.
- 1:1 Interaction that address individual interests
- Specially-trained, supportive staff
- Comprehensive Therapeutic Activities
- Comfortable, quiet, safe and secure environment
- Small Groups

Our Memory Care Program includes services, caregiver training, an environment based on those recommended by the Alzheimer's Association and Dementia Care Professionals of America.
